

Accredited testing laboratory (D-PL-11140-02-00)

Fraunhofer-Institut für Fertigungstechnik und Angewandte Materialforschung IFAM

Wiener Straße 12

28359 Bremen

Information about statement of conformity / decision rule

Test reports issued by the accredited testing laboratory at **Bremen** site do not contain a statement of conformity (to a specification) if:

- the test standard does not contain any specification, *or*
- the submission of a statement of conformity is not commissioned by the customer.

If the test standard contains a specification / decision rule for a statement of conformity (e. g. pass / fail), this rule will be applied accordingly.

If the test standard does not contain a specification and a statement of conformity is commissioned by the customer, the specification to be evaluated must be agreed in writing.

Decision rule: Unless otherwise agreed the measurement uncertainty is not taken into account for a statement of conformity.

Deviating decision rules are possible upon request, but must be agreed in writing before start of testings.

The applied decision rule for statement of conformity will be indicated in the test report.
