

Accredited testing laboratory (D-PL-11140-02-00)
Fraunhofer-Institut für Fertigungstechnik und Angewandte Materialforschung IFAM Wiener Straße 12
28359 Bremen

Information about statement of conformity / decision rule

Test reports issued by the accreditied testing laboratory at **Bremen** site do not contain a <u>statement of conformity</u> (to a specification) if:

- the test standard does not contain any specification, or
- the submission of a statement of conformity is not commissioned by the customer.

If the test standard contains a specification / decision rule for a statement of conformity (e. g. pass / fail), this rule will be applied accordingly.

If the test standard does not contain a specification and a statement of conformity is commissioned by the customer, the specification to be evaluated must be agreed in writing.

<u>Decision rule</u>: Unless otherwise agreed the measurement uncertainty is <u>not</u> taken into account for a statement of conformity.

Deviating decision rules are possible upon request, but must be agreed in writing <u>before</u> start of testings.

The applied decision rule for statement of conformity will be indicated in the test report.
