

# Chamber Furnace

## Nabertherm 3

### Principle

Furnace for heat treatment in air

---

<b>Manufacturer</b>	Nabertherm
<b>Furnace Type</b>	chamber furnace
<b>Heating System</b>	resistance heating, outside and inside
<b>Useable Volume</b>	base area approx. 80 x 100 mm, height about 100 mm
<b>Useable Gases</b>	air
<b>Useable Gas Flow</b>	stationary
<b>Pressure Range</b>	normal pressure
<b>Temperature Range</b>	up to 2200 °C
<b>Optional Equipment</b>	automatic temperature control of the outer chamber to activate the inner heating conductors
