

# Mass Flow Controller

## EL-Flow / CORI-Flow

### Principle

Mass flow measurement and control of gases based on their thermal properties (heat capacity).

The mass flow of liquids is measured by application of the Coriolis principle.

---

<b>Manufacturer</b>	Bronkhorst High Tech B.V.
<b>Gases</b>	EL-Flow Mass Flow Controller 0 ... 50 L <sub>N</sub> /min, 0 ... 200 L <sub>N</sub> /min
<b>Liquids</b>	CORI-Flow Controller 0 ... 30 kg/h, 0 ... 300 kg/h
