Thermostat
Lauda Integral XT 250 W

Principle

Creates a temperature controlled thermal oil flow as heat source or heat sink within different test rigs.

Manufacturer	Lauda
Temperature Range	-45 … 220 °C
Temperature Stability	± 0.05 K
Working Medium	Silicone Oil
Working Pressure	< 2.9 bar
Flow Rate	< 45 L/min
Thermal Output	3.5 kW
Cooling Capacity	≤ 2.1 kW
