

# Sieving Machine

## Principle

Vertically vibrating lab-sieving machine for separation and classification of particle fractions.

---

<b>Manufacturer</b>	Fritsch GmbH
<b>Sieve Set</b>	up to 8 sieves - 50 mm height
<b>Conversion Kit</b>	milling set, interior lining made of agate or hard metal
<b>Sieve Head</b>	plexiglass for dry sieving
<b>Controlled Electromagnet</b>	transfers 3000 vibrations per minute
<b>Sieving Times</b>	3 to 60 min.
