5TH INDUSTRY WORKSHOP

Dresden, 28-29 September 2022

Advanced Alkaline Electrolysis
5th Industry Workshop
Advanced Alkaline Electrolysis

Fraunhofer Institute Center Dresden,
28-29 September 2022

Join the discussions on

- Advanced electrocatalyst development & testing
- Electrode manufacturing technology
- Alkaline electrolyzer development & testing

Topics

- Advanced catalysts and materials
- Manufacturing of parts and components
- Electrolyzer equipment
- Operation modes
- Present and future markets
Details

Date: 28-29 September 2022
Location: Fraunhofer Institute Center Dresden (hybrid)

Registration: https://www.ifam.fraunhofer.de/AEL (until 2 September 2022)

Presentations

- Next Hydrogen Corporation, Canada
- Pulsenics Inc, Canada
- Green Hydrogen Lab, Université du Québec à Trois-Rivières, Canada
- W. L. Gore & Associates GmbH, Deutschland
- Entegris Inc., USA
- Hysata, Australia
- Permaskand AB, Sweden

Target Group

- Experts from industry and applied research

The workshop language will be English.
Further Information

Registration at event homepage:
https://www.ifam.fraunhofer.de/AEL

Please register for the workshop until 2 September 2022.

For any organisational questions, please contact info@ifam-dd.fraunhofer.de
